Description

Several of the links on the <http://www.deanza.edu/map/offcampus.html> page are returning 404 page not found errors or bogus locations.

Additionally, the links that do work are opening either Google Maps or MapQuest pages giving an inconsistent feel.

Where links are malformed or opening a MapQuest page, I have provided valid Google maps links.

1. Navigate to <http://www.deanza.edu/map/offcampus.html>
2. Open one of the below listed broken links to see the error

Links returning 404 errors:

Brunswick Bowling Alley

(Correct link: <https://www.google.com/maps/place/20990+Homestead+Rd,+Cupertino,+CA+95014> )

Monta Vista High School

(Correct link: <https://www.google.com/maps/place/21840+McClellan+Rd,+Cupertino,+CA+95014> )

Hyde Middle School

(Correct link: <https://www.google.com/maps/place/19325+Bollinger+Rd,+Cupertino,+CA+95014> )

Fremont High School

(Correct link: <https://www.google.com/maps/place/1279+Sunnyvale+Saratoga+Rd,+Sunnyvale,+CA+94087> )

El Camino Hospital

(Correct link: <https://www.google.com/maps/place/2520+Grant+Rd,+Mountain+View,+CA+94040> )

Links returning bogus locations:

Homestead High School - returns the zip code 95014, not 21370 Homestead Rd., Cupertino

(Correct link: <https://www.google.com/maps/place/21370+Homestead+Rd,+Sunnyvale,+CA+94087> )

Blackberry Farm Golf Course - returns Cupertino, not 22100 Stevens Creek Blvd. Cupertino

(Correct link: <https://www.google.com/maps/place/22100+Stevens+Creek+Blvd,+Cupertino,+CA+95014> )

Valley Christian Church - returns Cupertino, not 10855 Stelling Rd. Cupertino

(Correct link: <https://www.google.com/maps/place/10855+N+Stelling+Rd,+Cupertino,+CA+95014> )

Deep Cliff Golf Course - returns the US, not 10700 Clubhouse Lane, Cupertino

(Correct link: <https://www.google.com/maps/place/10700+Club+House+Ln,+Cupertino,+CA+95014> )

Links working as expected, but using MapQuest:

Hoefler Building

(Correct link: <https://www.google.com/maps/place/21050+McClellan+Rd,+Cupertino,+CA+95014> )

Sunnyvale Medical Clinic

(Correct link: <https://www.google.com/maps/place/596+Carroll+St,+Sunnyvale,+CA+94086> )

Valley Medical Center

(Correct link: <https://www.google.com/maps/place/2325+Enborg+Ln,+San+Jose,+CA+95128> )

Vision New America

(Correct link: <https://www.google.com/maps/place/1922+The+Alameda,+San+Jose,+CA+95126> )

Vasona Park

(Correct link: <https://www.google.com/maps/place/333+Blossom+Hill+Rd,+Los+Gatos,+CA+95032> )

Links working as expected and using Google maps:

Cupertino Senior Center

Sunnyvale Senior Center

San Jose Job Corp

Hope Whittier Site

Palo Alto Medical Foundation

Hope Alfred Site

Expected Behavior:

All links should open to a map of the actual location of the designated facility, and they should all open in the same web app (MapQuest or Google).

Actual Behavior:

Many links are broken returning 404 errors or imprecise locations. Some working links open in MapQuest while others open in Google.

**[Comment 2](#)**

Good points, and we appreciate the Google Maps links. The Web Team will be switching to all Google Maps links.

A really good bug, Scott! Easy to follow, very "meaty" (multiple similar bugs in one report), AND you even did some of the work for the dev! I'm thinking this one may be on your five-best submission!
